Machines

In Partnership with Tennant, Equipco can provide an extensive line of innovative cleaning products. Take a look at all the cleaning equipment options available from Tennant

Scrubbers [Click here for more information](#) 

Tennant scrubbers to help you maintain a clean, safe & productive environment. Choose highly maneuverable walk-behind scrubbers for tight spaces or large, rider scrubbers that are effective in industrial environments with severe grime and grease. Tennant scrubbers feature FaST Foam Scrubbing Technology® that leaves floors clean, dry and safe for traffic in less than 30 minutes.

Scrubbers/Sweepers [Click here for more information](#) 

Boost productivity with double-duty models that deliver superior sweeping and scrubbing performance in one machine. Dependable, combination scrubbers/sweepers collect debris & leave floors clean in one pass. Enhance efficiency with ES® Extended Scrubbing, which uses less water and provides three times more continuous cleaning time.

Sweepers [Click here for more information](#) 

Depend on quality Tennant sweepers to deliver superior, long-lasting results even in the harshest environments. Tennant has perfected dust containment with advanced engineering of the Quad Filtering System to trap particles and the VCS filter-shaker to dislodge clogs. All Tennant sweepers deliver continuous uptime and powerful sweeping performance to ensure your success.
