Stock Picking Products

Similar in design to vertical personnel lifts - Used for stock picking, general maintenance & other repetitive tasks. Provides close access to shelving and materials - Push-around models feature large platforms - High capacities of 500 pounds & working heights up to 21' - Can be configured to your specific stock-picking requirements. - Used to improve the efficiency, reach and safety of workers - Compact design and outstanding maneuverability - Virtually eliminates the need for ladders or other elevating devices. - Mobile models are driveable at full platform height

Push-Around Stock Pickers

- Working heights of 18 and 21 ft
- 500 lb platform capacities
- The most rigid anodized masts in the industry
- Long battery duty cycles
- Flexible platform rail set-up for efficient retrieval of materials

Typical Applications

Stock picking, Inventory Management, Setting up displays, Hanging decorations, Lighting, Routine maintenance, General repair work and more..

Choose from 2 Models:
